Thursday & Friday
September 21 & 22

Register by August 14th to take advantage of our Early Bird Rates!

Street Drugs

Opioid Misuse

AAP Classification

Furcation Navigation

Infection Control

Risk Management

2023 Headliner

Dr. Harold Crossley

CONFERENCE LOCATION

- THE ONCENTER
- 800 South State Street, Syracuse, NY

REGISTRATION AND ADMITTANCE

- All pre-registered attendees must check in at registration for each day of the conference they are attending.
- Admission to all sessions and exhibits is by proper registration and ID only.
- Badges must be visible at all times.
- Admission to the exhibits only is free, but check-in is required.

PRE-REGISTRATION

- Pre-Register. Registration form is located on the inside back cover.
- Pre-registered attendees will receive their course confirmation(s), name badge(s) and lunch ticket(s) by mail.
- Persons registering after September 9 must pick up their materials on-site.
- Lost tickets will be replaced *only* with proof of purchase.

ONLINE REGISTRATION

- Register Online at www.cnydc.org.
- Receive immediate confirmation and receipt by email.

ONSITE REGISTRATION

Registrations the day of the seminar are subject to a \$20 late registration fee.

ON-SITE REGISTRATION HOURS:

Thursday Evening: 4:00 - 5:00 pm
Friday Morning: 7:30 - 9:00 am

PARKING

- ONCENTER Parking Garage (State Street) \$5.
- Tell attendant you are part of the dental conference.

ACCOMMODATIONS

- CNYDC hotel rates for September 21 & 22
- Reservation Deadlines: AUGUST 24, 2023
- EMBASSY SUITES SYRACUSE DESTINY - 315-303-1650
- King Bed Studio Suite: \$179

BREAKS AND LUNCH

- Break and Lunch times are staggered according to course and will be announced by your instructor.
- A buffet lunch is served to allow more time for visiting exhibits.
- Lunch Tickets are required for admission and are included with a full day course registration.
- Additional lunch tickets may be purchased in advance for \$30.00 per person.

REFUND/CANCELLATION POLICY

- Refund requests must be received no later than September 14, 2023 and will be granted only in cases of family or office emergency.
- All badges and tickets must be returned to the FDDS.
- Payment for meal functions will not be refunded.

CONTINUING EDUCATION CREDITS

- The Fifth District Dental Society is an ADA/CERP recognized provider approved by the New York State Dental Association.
- ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.
- Mandatory Continuing Education (MCE) credits are awarded for all lectures that meet the NYSED requirements.
- One hour of credit is awarded for each 50 minutes of presentation attended.
- MCE forms for NYS Continuing Education requirements will be given to each attendee when checking in at registration.
- To verify attendance, a four digit code, read at the end of each seminar must be entered on the Fifth District Continuing Education Form.
- After completing the form, please bring the white copy to the room proctor before leaving.
- It is recommended that you retain all copies of your CE forms in case of audit.

**DENTAL MARKETPLACE**

- Admission to the Marketplace is free!
- The Marketplace is open from 5:00 pm to 7:00 pm on Thursday, September 21, and 8:00 am to 3:00 pm on Friday, September 22.
- We appreciate the contribution the exhibitors make to the Central New York Dental Conference and we urge you to visit and patronize them.

IN THE MARKETPLACE EVENTS

- Exhibitor Reception and Preview will be held in the Dental Marketplace on Thursday Evening from 5:00 - 7:00 pm and all are welcome.

Be sure to share this brochure with your entire office staff. The Central New York Dental Conference (CNYDC) offers seminars for both the dental practitioner and their dental office personnel.

Please visit www.cnydc.org for more detailed information, updates, or to register online.

Welcome to the 2023 Central New York Dental Conference

The largest and only dental conference of its kind in central New York.

We invite all dental professionals and their staff to attend the 40th Annual Central New York Dental Conference (CNYDC). The CNYDC boasts nationally renowned speakers such as **Dr. Harold Crossley**, along with a Dental Marketplace filled with dental representatives and vendors eager to show you their latest and newest products. The floorplan is designed to allow more accessibility to every vendor from two well-furnished hospitality areas. Wifi, comfortable seating, food and refreshments will make your visit to the Dental Marketplace one to remember!

We have a stellar lineup of speakers this year, offering seminars that will provide you with the practical knowledge you seek, and can put to use on Monday morning!

Your committee has worked many hours to develop and bring you this unparalleled program. We urge you to participate in this educational experience and to visit with our exhibitors who have supported our profession so many times. Don't miss this local opportunity to fulfill your MCE requirements, see the latest in dental products, as well as visit with other upstate colleagues.

Plan to attend. Reward your staff and make it an office event. I'm sure no one will be disappointed.

The Fifth District Dental Society is the sponsor of the Central New York Dental Conference. The Fifth District Dental Society is a component of the New York State Dental Association and the American Dental Association.

#1: NYS Mandated Dental Office Infection Control

Speaker: Pamela Quinn, RDH, MS

Thursday, September 21, 2023 • 5:00 pm - 8:00 pm

3 MCE credits

Dental Office Infection Control 2023

Dental office infection control has evolved since the OSHA Bloodborne Pathogens Standard and the NYS training requirement were introduced in 1992. Practices have continued to evolve and incorporate advisories from federal, state and local agencies. Without a doubt the latest challenge to dentistry has been the Covid 19 pandemic. Every dental office needs to be familiar with current guidance to provide a safe environment for patients and staff. Updates from OSHA, NIOSH, CDC, FDA, EPA and ADA must be incorporated into our daily routines. This guidance is in addition to existing requirements from the NYS DOH and SED. This course will examine conventional, as well as emerging aspects of infection control. This curriculum fulfills the specific infection control course requirements for the mandated NYS Infection Control as well as OSHA training.

At the completion of this course participants will:

- Understand the professional responsibility to monitor office infection control practices.
- Understand how pathogens may be transmitted in the work environment: patient to healthcare worker, healthcare worker to patient, and patient to patient.
- Apply current scientifically accepted infection prevention and control principles as appropriate for the specific work environment.
- Minimize the opportunity for transmission of pathogens to patients and healthcare workers.
- Familiarize professionals with the law requiring this training and the professional misconduct charges that may be applicable for not complying with the law.
- Comply with New York State and OSHA training requirements

Target Audience

Dentists, Dental Hygienists, Dental Assistants

Pamela Quinn earned her Associate in Science in Dental Hygiene from Onondaga Community College, and continued her education at the State University of New York at Cortland earning a Bachelor of Science in Health Education and a Master's in Education.

Pamela began her teaching career as an instructor in Broome Community College's dental hygiene program and served in this capacity from 1988-2001. In fall of 2001 she became the program director for Onondaga Community College's dental hygiene program. In 2004, she was appointed the Associate Vice President of Academic Affairs at Onondaga Community College where she was instrumental in the transfer of OCC's dental hygiene program to SUNY Canton. She returned to teaching and became the program director for the SUNY Canton program from 2005- 2019.

At the peak of COVID, Pam was employed by the Onondaga County Health Department and provided vaccinations at the Oncenter. During that time, she also served as a consultant for several offices in Onondaga and Oneida Counties developing Respiratory Protection Programs for the offices, providing OSHA mandated training, and conducting fit testing for N95 respirators. In addition, she has served as the corresponding secretary for the Central Region Dental Hygiene Association and was Vice President of Professor Development for the New York State Dental Hygiene Association (NYDHA). She has taught several webinars for NYDHA and has shared her expertise as a dental hygiene textbook reviewer for a number of publishers.

In 2003, Pamela was the recipient of the NISOD Award for Excellence in Teaching at a Community College. Pamela was named Who's Who Among Community College professors in 2003 and 2004. In 2005 she was nominated for the Empire Who's Who of Women in Education. Pam served as a consultant for the NYS Department of Health's Surveillance Project during the summer of 2004 when she was not teaching. In 2015, Pamela was awarded the SUNY Chancellor's Award for Excellence in Faculty Service.

(Pamela Quinn has no financial relationships relevant to this presentation to disclose.)

#2: FORTRESS Risk Management

Speaker: Michael Ragan, DMD, JD, LLM

Thursday, September 21, 2023 • 5:00 pm - 8:00 pm

3 MCE credits

Reducing Dental Practice Risk

Through an analysis of closed Fortress malpractice claims, this course will provide strategies and resources to enhance patient safety and to reduce risk in the dental practice. Closed claim topics include esthetic restorations, wisdom tooth extractions, oral cancer, endodontic treatment, and implants. Risk management topics include documentation, communication, informed consent, technology, patient selection, referrals, prescription practices, patient noncompliance, and ethics. There are no prerequisites.

Objectives:

- Identify common dental malpractice risks
- Understand how to adapt office policies and procedures to mitigate exposure to identified risks in the dental practice
- Implement strategies with professional teams and referral networks to encourage patient safety and reduce risk
- Understand the litigation process, board investigations and the role of the insured provider in each

Dentists who complete this course will be entitled to a 10% discount on their liability premiums for a three year period from the Fortress Insurance Company.

- Other insurance companies may also accept this course for a discount.
- Please check with your carrier.

Target Audience

Dentists, Dental Hygienists, Dental Assistants

Dr. Ragan is a defense trial attorney in a Miami, Florida law firm with 25 years of experience. Dr. Ragan received a B.A. from Syracuse University, a D.M.D. from the University of Pennsylvania School of Dental Medicine, a J.D. from the Georgetown University Law Center, and an L.L.M. in Health Law from Loyola University College of Law. Dr. Ragan is presently Adjunct Professor in the Department of Oral and Maxillofacial Surgery at the Nova Southeastern College of Dental Medicine. Dr. Ragan practiced clinical dentistry for fifteen years and supervised healthcare professional liability claims for seven years within the insurance industry. Dr. Ragan was on the Board of Directors of Fortress Insurance Company as well as the Chairman of their Claims Committee and currently serves as Medico-legal Consultant for Fortress. Dr. Ragan is a Fellow of the American College of Dentists, the International College of Dentists, and the American College of Legal Medicine.

(Dr. Ragan is a consultant for Fortress Insurance Company.)

#3: Street Drug Abuse 2023 & Opioid Use, Misuse & Addiction

Speaker: Harold Crossley, DDS, MSD, PhD

Friday, September 22, 2023 • 9:00 am - 4:30 pm

7 MCE Credits

Street/Pharmaceutical Drug Abuse and Its Impact on You, Your Family and Your Practice (AM)

The morning session will include discussion of the street/pharmaceutical substances of abuse that are currently in the news. These substances can be purchased on the internet via the social media such as Tik/Toc, Facebook, etc. at their schools, or on the street.

At the end of this discussion the participant will be able to:

- List ten abused substances currently in the news
- Describe some signs/symptoms of commonly abused substances
- Describe the sources/origins of commonly abused substances

Opioid Use, Misuse, Abuse, & Addiction: Appropriate Opioid & Non-Opioid Prescribing (PM)

The afternoon program will include discussion of the addictive nature, abuse, and proper prescribing of opioids in a dental practice. For centuries opioids have been used to control pain and suffering, but at what cost to us, our families, and our dental practices? What are our alternatives for controlling post-operative dental pain?

At the end of this discussion the participant will be able to:

- list factors that contribute to the disease of addiction
- describe behaviors associated with the disease of addiction
- list non-opioid alternatives for controlling post-operative dental pain
- list indications for opioids to control post-operative dental pain
- describe the types of pain encountered in the dental office

The afternoon session qualifies for 3 of the 8 hours required in the federal MATE Act for narcotic prescribers.

Target Audience

Dentists, Dental Hygienists, Dental Assistants, Front Office, Office Managers

Harold L. Crossley, D.D.S., M.S., Ph.D. is Professor Emeritus at the University of Maryland Dental School. A native of Rhode Island, Dr. Crossley received a Bachelor of Science degree in Pharmacy from the University of Rhode Island in 1964. He later was awarded the Master of Science (1970) and Doctorate degrees (1972) in Pharmacology. The University of Maryland Dental School in Baltimore awarded Dr. Crossley the D.D.S. degree in 1980. The liaison between the classroom and his part-time dental practice produced a practical approach to understanding the pharmacology of drugs used in the dental office.

Dr. Crossley has co-authored a number of articles and four books dealing with a variety of topics within the field of pharmacology. Other areas of expertise include the pharmacology of street drugs and chemical dependency. He serves on the Maryland State Dental Association's Well-Being Committee, is an active member of Phi Kappa Phi, Omicron Kappa Upsilon Honorary Dental Society, the American College of Dentists, International College of Dentists, and an honorary member of the Thomas B. Hinman Dental Society. He was the recipient of the 2008 Gordon Christensen Lecturer Recognition award presented by the Chicago Dental Society and the recipient of the 2012 Award of Distinction presented by the Academy of Dentistry International for his efforts in Continuing Dental Education. He has been a consultant for the United States Drug Enforcement Administration and other law enforcement agencies since 1974. Drawing on this unique background, Dr. Crossley has become nationally and internationally recognized as an expert on street drugs and chemical dependency as well as the clinical pharmacology of dental drugs.

(Dr. Crossley has no financial relationships relevant to this presentation to disclose.)

#4: AAP Classification & Furcation Navigation

Speaker: Mariane Dryer, RDH, MS

Friday, September 22, 2023 • 8:30 am - 4:00 pm

7 MCE Credits

AAP Classification of Periodontal and Peri-Implant Diseases: Aligning the Dental Hygiene Diagnosis (AM)

The updated AAP classification system created in 2017 represents a multi-dimensional staging and grading framework for periodontitis and implant disease status. This course will examine the concepts of staging and grading to classify each patient by complexity of case management, likelihood of less predictable response to therapy, and potential for periodontitis development. Diagnosing, treatment planning, and executing appropriate and necessary periodontal therapies will be reviewed utilizing case presentations and group activities. A hallmark feature of the updated system brings opportunities for more case specific patient care. The need for calibration and clinician alignment with the new classification system will be discussed along with narrative examples for documentation recommendations..

Course Objectives:

- Examine the historical timeline and evolution of the AAP Classification System.
- Discuss the new staging/grading system for periodontal disease and how it will benefit patient care and management.
- Create treatment modalities that are evidence-based protocols for specific types of periodontal diseases according to the new classification system.
- Identify patients who may benefit from adjunctive strategies of disease management and overall health surveillance based on the updated classifications.
- Develop individualized homecare regimens utilizing staging and grading to motivate and encourage patients to improve their oral health.

The Art of Furcation Navigation with Ultrasonic Instrumentation (PM)

This course examines the need for proper foundational skills in ultrasonic technique with both magnetostrictive and piezo technology. A review of proper adaptation, angulation and adaptation will be discussed as well as features of both technologies to achieve better clinical outcomes. Understanding the working mechanisms of both technologies, advantages and limitations, and visual indicators to ensure proper utilization of the power scaling technologies. These fundamental principles will then be applied to advanced instrumentation in the periodontal patient with focus on furcation involvement and areas of challenging anatomical access. Maintenance of ultrasonic inserts and tips will be discussed along with optimum water management and individual patient considerations.

Course Objectives:

- Apply the Evidence-based Decision Making (EBDM) process to periodontal instrumentation choices
- Develop an understanding of the role ultrasonic instrumentation in biofilm reduction and access to anatomical challenges
- Examine the differences and similarities in various ultrasonic technologies
- Discuss the need for a variety of ultrasonic inserts/tips/instruments for thorough periodontal debridement including effective access to dental implant surfaces.
- Identify the steps to ensure thorough removal of deposits and biofilm utilizing slim and ultrathin inserts/tips with an exploratory approach
- Examine current trends in implant maintenance and the need to be current with the research when choosing debridement instruments.
- Apply proper maintenance and aerosol control protocols while using ultrasonic instrumentation effectively and efficiently

Target Audience

Dental Hygienists, Dentists, Dental Assistants

Marianne Dryer is one of dental industry's most outspoken educators on subjects of periodontal instrumentation and a champion of early and advanced introduction to ultrasonic instrumentation into dental hygiene curriculums. Her dynamic presentations, articulate academic instruction, and insightful curriculum development consultation are founded on more than 30 years of oral health experience. As such, Marianne is sought after nationally and internationally for her presentations on ultrasonic technique, risk assessment, infection prevention and radiology technique. Marianne is currently the Program Director at Cape Cod Community College and also provides faculty in service programs on the 2018 AAP Classification Updates. She is a graduate of Forsyth School for Dental Hygienists, Old Dominion University and received her Master's in Education from St Joseph's College of Maine.

(Marianne Dryer has no financial relationships relevant to this presentation to disclose.)
